

Who Are We? And. What Does AMA Mean to Us?

“AMA means "Family" and it is something I will never forget.”

Rocio Elci.

Each day is full of adventures.

We learn, laugh, share and love.

We are a class of nine students who love to live each day at its fullest. You may ask yourself what makes us so "special?" The truth is: we are just as normal as any teenagers can get. We are creative when it comes to planning a party, we can improvise any song, we love hanging out at “Café Loco” and we are obsessed with Series like "The Walking Dead." And, every Tuesday morning, we come to school and spend hours talking about how “amazing” the show is. -We like to spend time on our electrical devices, learning about all the things social media can provide. Like most teenagers in school, we can hardly wait for Friday to come around. And, of course, we cannot live without some *reggeton* and delicious pizza.

Each of us are full of ideas, personality and the intention to learn.

We all have much in common.

And, the thing that we share the most is the will and desire to help our country.

We believe that by hands on learning about our country’s problems and investing time into become the generation of change, we can one day pick up all the pieces other countries have left, and make Guatemala a place our future generations will enjoy more than we do now.

Senior Spot Light

Elmy Barbara Pablo Reanda. A bright spirit only 18 and from Santiago Atitlán. After graduation she wants to attend university and learn about International Relations. She is currently active in her local church by helping with medical teams and translating.
